DETAILED ACTION***Election/Restrictions***

1. This application contains claims directed to the following patentably distinct species or combination: (i) COX2 inhibitors selected from the group consisting of celecoxib, deracoxib, valdecoxib, rofecoxib, limiracoxib, etoricoxib, compounds

represented by the formula

compounds represented by the formula

, compounds

represented by the formula

and etc...

and (ii) serotonin reuptake inhibitor selected from the group consisting of citalopram, fluoxetine, fluvoxamine, paroxetine, escitalopram, oxalate, sertraline, norfluoxetine and

Art Unit: 1614

N-demethylsertraline. The species are independent or distinct because various COX2 inhibitor represented by the formula and/or serotonin reuptake inhibitors are recognized in the art as different classification.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species or the specific combination (e.g., celecoxib from COX2 inhibitor and setraline from serotonin reuptake inhibitor) for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, 1-8 and 10-56 are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brian Kwon whose telephone number is (571) 272-0581. The examiner can normally be reached Tuesday through Friday from 9:00 am to 7:00pm.

Art Unit: 1614

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Christopher Low, can be reached on (571) 272-0951. The fax number for this Group is (571) 273-8300.

Any inquiry of a general nature of relating to the status of this application or proceeding should be directed to the Group receptionist whose telephone number is (571) 272-1600.

If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

2. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

Art Unit: 1614

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brian Kwon whose telephone number is (571) 272-0581. The examiner can normally be reached Tuesday through Friday from 9:00 am to 7:00pm.
